

## Successful Exhibitions in spite of the Volcanic ash

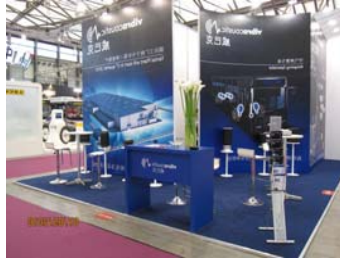

Vibracoustic was present with attractive booths on the Shows Comtrans (April 20<sup>th</sup> - 24<sup>th</sup>) in Moscow and Busworld (May 06<sup>th</sup> -08<sup>th</sup>) in Shanghai.

As you may remember the flights have been cancelled and delayed dramatically during this period due to the volcanic ash.

For this reason, lower number of visitors were expected on these shows, but we have experienced a large number of visitors from several countries from the OEM and IAM as well.

The visitors have shown a great interest in our new innovative solutions and new products.

*Busworld Shanghai*

## Updated webpage with new references

**www.aircruise.com:** Our webpage for Commercial Vehicle Airsprings has been updated regarding products and specific information.

## Status of new Vibracoustic factory in Yantai, China

The new factory construction had started in September 2009 and we are proud to inform you that the building and the infrastructure is ready, the installation of the machines are in process. The first trial and test of the equipments are forecasted for the 2nd half of June.

The serial production of the airspring will start in the 3rd quarter 2010. With this new plant we will be able to fulfil the requirements of our Chinese customers faster and in

a more cost-efficient way. About 100 well trained skilled workers will be manufacturing airsprings and chassis parts in an area of 8000 m2 in Yantai which is located in proximity to customers and suppliers as well.

## Upcoming exhibition

**Frankfurt, Germany, September 14<sup>th</sup>-19<sup>th</sup>**

This fair is the world's leading trade fair for the automotive

industry where automotive components, spare parts and accessories are one of the largest theme areas.

Vibracoustic booth is located at **Booth No. F81** in **Hall 3.0**. You are most welcome to visit us!

## ROMASTA, Lithuania

ROMASTA was one of the first IAM partners of Vibracoustic. The company was founded in 1995 and is well known as a quality supplier in the Baltic region. ROMASTA grows constantly according to desires and needs of the customers.

During the last few years the network of wholesale and retail sales has been widely developed. Besides the existing shops in Kaunas and Vilnius, new shops have opened in Shaulyai, Alytus, Mariampole, Klaipeda and Utena. After reconstruction of the

warehouse in Kaunas, there was an opportunity to expand an available assortment of products to deliver the necessary goods to the client much more quickly. ROMASTA has earlier rendered services on repair for cargoes and buses and also carried out repair works of trailers and semi-trailers. These activities help to serve clients much more quickly and efficiently besides rendering them complex services.

## Vibracoustic do Brasil

Freudenberg has taken over 50% shares of Vibracoustic do Brasil from Group Anvis and now the company is owned 100% by Freudenberg.

The company is specialised in different anti-vibration parts for car industry and supplying all the major manufacturers on the fast growing Brazilian market.
